BIOREMEDIATION OF CHROMIUM USING BACTERIAL BIOFILMS

LAP Lambert Academic Publishing Mrz 2012, 2012. Taschenbuch. Book Condition: Neu. 220x150x10 mm. This item is printed on demand - Print on Demand Neuware - A number of technologies have been developed to remove chromium from the effluents but none seems to be effective at the industrial scale. The present study is an effort in this direction, where Cr(III) and Cr(VI) can be removed from tanning effluent by the use of Cr tolerant bacterial isolates from chromium contaminated sites. Since Chromium...

Reviews

The publication is easy in read through better to fully grasp. It is probably the most awesome pdf i actually have read through. It is extremely difficult to leave it before concluding, once you begin to read the book.

-- **Elia Jaskolski**

This pdf is very gripping and fascinating. Sure, it is perform, nevertheless an amazing and interesting literature. I am delighted to let you know that this is basically the greatest publication we have read through during my personal life and might be he very best pdf for actually.

-- **Dr. Mariana Romaguera PhD**

A whole new eBook with a brand new point of view. It is definitely simplistic but shocks in the 50 percent of the publication. I am just pleased to explain how this is the greatest ebook i have read during my very own daily life and could be he best ebook for possibly.
