TRANSLATION AND HEALTH RISK KNOWLEDGE BUILDING IN CHINA

Springer-Verlag Gmbh Sep 2017, 2017. Buch. Condition: Neu. Neuware - This pivot considers the dissemination of public health terms in Chinese scientific research and printed media. Bringing together quantitative and qualitative analysis from corpus linguistics, translation studies, contrastive linguistics to bear on the study of specialised public health translation, it provides key insights into the translation of key public health policy materials produced by authoritative international health agencies like the World Health Organisation (WHO). The study of the acceptance, assimilation...
