There is a fair amount of geographic variation. In Mediterranean Europe, areas such as Italy, the south of France and Spain, where plague ran for about four years consecutively, it was probably closer to 75-80 of the population. In Germany and England . it was probably closer to 20 . - Philip Daileader, medieval historian In the 14th century, a ruthless killer stalked the streets of England, wiping out up to 60 of the terror-stricken nation s inhabitants. This invisible and unforgiving terminator continued to harass the population for hundreds of years, but nothing could compare to the savagery it would unleash 3 centuries later. This conscienceless menace was none other than the notorious bubonic plague, also known as the Black Death. The High Middle Ages had seen a rise in Western Europe s population in previous centuries, but these gains were almost..
