Reviews

The publication is great and fantastic. It is probably the most remarkable book i actually have read through. Its been printed in an exceedingly easy way and it is merely right after i finished reading through this publication where in fact altered me, modify the way i think.

Forgotten Books, 2017. Hardback. Condition: New. Language: English . Brand New Book ***** Print on Demand *****. Excerpt from The Doctrine of Limits, With Its Applications: Namely, Conic Sections, the First Three Sections of Newton, the Differential Calculus; A Portion of a Course of University Education But though these considerations appear to render such a work as the present desirable, they would probably not have been sufficient to induce me to encounter the labour and difficulty of writing it, if I had not thought that it would illustrate and promote the genuine objects of the study of Mathematics as part of a University education. I have already endeavoured to define those objects, and to extend our means of attaining them, and I will now make a few further remarks on the subject, with a special reference to the present Treatise.
