GENDER MOSAICS: SOCIAL PERSPECTIVES: ORIGINAL READINGS (PAPERBACK)

Oxford University Press, USA, United States, 2000. Paperback. Condition: New. Language: English . Brand New Book ***** Print on Demand *****.Dana Vannoy's Gender Mosaics is a collection of original essays written expressly for this volume by eminent gender scholars. The essays represent a rich variety of writing styles, mixing theory, data, personal experience, and expressions of politics and policy. The essays are clearly written and accessible for undergraduates. While the focus of this volume centers on relations between women and men, the diversity of experience provided by the intersection of race, ethnicity, class, and sexual orientation is also taken into account. Gender Mosaics reflects a sociological point of view on gender. It emphasizes both the social construction of gender in everyday interactions and gender as a stratification system built into social institutions. Through these readings, students come to see how gendered behavior results in a stratification system in which men and women wield unequal power and opportunity for self-determination, both in personal relationships and in the social organizations of society. Thought-provoking introductions to each article guide the student and ease instruction by identifying and explaining central issues, key concepts, and relationships among topics. This provides internal cohesiveness and structure to the selections. Discussion questions follow.
