Channel View Publications Ltd, United Kingdom, 2013. Paperback. Condition: New. New. Language: English . Brand New Book. This book is a timely comparison of the divergent worlds of policy implementation and policy ambition, the messy, often contradictory here-and-now reality of languages in schools and the sharp-edged, shiny, future-oriented representation of languages in policy. Two deep rooted tendencies in Australian political and social life, multiculturalism and Asian regionalism, are represented as key phases in the country s experimentation with language education planning. Presenting data from a five year ethnographic study combined with a 40 year span of policy analysis, this volume is a rare book length treatment of the chasm between imagined policy and its experienced delivery, and will provide insights that policymakers around the world can draw on.
