

The Blue Geography (Paperback)

Filesize: 8.95 MB

Reviews

This book is definitely not effortless to begin on looking at but quite entertaining to read. Better then never, though i am quite late in start reading this one. I am just easily can get a enjoyment of looking at a written ebook.

Plain View Press, LLC, 2005. Paperback. Condition: New. Language: English . Brand New Book ***** Print on Demand *****. The Blue Geography continues the story of the characters in the critically acclaimed short novel, Wintershine. A mercurial book about the quest for freedom and the pursuit of happiness, it interweaves four stories which span the 20th century; those of Beatrice, her mother, Louise, her Uncle Robin (all of whom narrate) and that of Beatrice's uncle, Lyman Roy. Louise tells about her youth when she ran away on a wild horse that she loved. Robin, who is a timid boy, tells about flying off rooftops and almost off an Hawaiian hilltop, (and about how he discovered when he was on stage that he could sing). Roy's story, which Beatrice relates, is different - a journey to the interior, a story of withdrawal, retreat into what Beatrice calls the world's heart - and the one she learns the most from. An American myth, a chase after a dream that spans continents and oceans, a long rainbow - in this case, Scotland to Maui, this is a book that explores the concept of boundlessness and a quest for freedom of the spirit.
