Two Degrees From Zero is a story about a boy who lost his father in a car accident two years earlier, and struggles to accept his mom's new romance, Thomas. Thomas invites Derek, his mom, and teen friend Janae (The Clan) on a snowboarding/ski vacation to Keystone, Colorado. When a blizzard hits during a sleigh ride and dinner at an isolated yurt miles from Keystone, The Clan accepts an offer from two arrogant snowmobilers for a way home. But to The Clan's dismay instead of going home, they are abandoned in a creepy backwoods cabin. Derek and Janae sneak out of the old cabin and trek across a white wilderness to find help while the snowmobilers, suspected of theft, are on the loose. Just as the teens find temporary shelter in an abandoned car, another blizzard rages all night, leaving them hopelessly stranded. And their adventure has only begun. The teens must escape the frozen ravages of the blizzard. Derek's determination to save The Clan while outwitting the thieves is unstoppable. And the thieves are just as determined to find Derek's snowboard because of valuable information hidden on the board.
