Harnessing science, technology and innovation for inclusive and sustainable development in Asia and the Pacific (Paperback)

By United Nations: Economic and Social Commission for Asia and the Pacific

United Nations, United States, 2016. Paperback. Condition: New. Language: English . Brand New Book. The Study calls for governments to put in place action-orientated science, technology and innovation (STI) programmes aligned to development strategies to meet the ambitions of the Sustainable Development Goals (SDGs). It proposes a conceptual framework for STI that is bound by the principles of openness, inclusivity and collaboration, and moves the focus beyond the economic to integrate the social and environmental pillars of sustainable development. The Study concludes by recommending areas for action by Member States to create an enabling environment for STI, fully integrating the three pillars in to STI policy, and to facilitate regional STI collaboration.

Reviews

Extensive guide! Its such a excellent read. This can be for anyone who statte that there was not a worth looking at. I am just effortlessly will get a satisfaction of looking at a written publication.

-- **Melvin Hettinger**

This book will not be effortless to start on reading through but very exciting to learn. It is amongst the most remarkable book i have got go through. Once you begin to read the book, it is extremely difficult to leave it before concluding.
